Control litter by placing your loose trash in trash bags and tie it closed. Place bags in your trash can or 96g cart and close the lid. Then when your trash is dumped on your trash day all that is dumped out are the bags. NO LOOSE TRASH to blow around!

In addition, bagging your trash will help control any SMELLS / ODORS in your trash can or 96g cart. If your trash can or 96g cart smells wash it out with the following steps:

*** Please be SAFE! Wear safety glasses, gloves and old clothing when following these steps.**

Step 1 Remove all large items inside from container.

Step 2 Spray water inside & out of container, use a brush on soiled areas.

Step 3 Pour bleach inside the container and slosh it around and or use a brush on inside - this will do a deeper cleaning and eliminate the smell / odor.

Step 4 Rinse out container and let dry out completely.

If you still have a smell / odor - **repeat steps 3 and 4** and let the bleach set / soak inside container 15-30 minutes. It might take a couple times of step 3 for more stubborn stronger smells / odors but it will work.
